EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicants, an amendment may be filed as provided by 37 CFR 1.312.

Authorization for this examiner's amendment was given in a telephone interview with W. Douglas Hahm (202-721-8200) on 3/31/05.

2. The application has been amended as follows:

In the Claims (amended on 3/8/05):

- In Claim 14, delete lines 1-9: "(New) A method of manufacturing ... during operation of the motor." and insert therefore:
 - (Amended) A method of manufacturing a stator core, comprising:
 - fabricating said stator core of non-oriented electrical steel sheets;
 - heating said stator core to a temperature above a Curie point of the stator core; and
 - cooling the heated stator core while applying a magnetic field thereto at least through a temperature range from a temperature above the Curie point to a temperature of 300 degree C, the magnetic field having a direction the same as a direction of excitation of a stator of the motor during operation of the motor;
 - exciting the stator core with high frequency current; and

driving said stator core in a magnetic field having induction no greater than 1.0T. -- .

REASONS FOR ALLOWANCE

3. The following is an Examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest all of the limitations of the claimed invention including a method of manufacturing a stator core with the steps of exciting the stator core with high frequency current and driving said stator core in a magnetic field having induction no greater than 1.0T.

The Applicants' Remarks filed on 3/08/05 (Cf. pages 14 & 15), which are incorporated herein by reference and made a part hereof as though they were fully written, are persuasive to the issue of patentability.

Any comments considered necessary by Applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
